## H] Outcome of the seminar:

The Lecture entitled "*Enlightenment on Exploring The Path: Opportunities and Challenges in Implementing NEP 2020 at the UG Level*" has been organized to critically examine the key provisions of the National Education Policy (NEP) 2020 as they pertain to undergraduate education. This initiative aims to provide a comprehensive understanding of the opportunities presented by the policy for enhancing the quality of higher education, while also addressing the challenges that may arise during its implementation. By fostering dialogue and collaboration among educators, policymakers, and stakeholders, the programme seeks to explore practical solutions and strategies for successful integration of NEP 2020 into the undergraduate curriculum, pedagogy, and institutional frameworks.

As a result of this initiative, participants have gained a clearer understanding of the NEP 2020 framework and its implications for undergraduate education. The expected outcomes include the identification of both opportunities and challenges in areas such as curriculum redesign, multidisciplinary approaches, flexibility in course offerings, skill development, and technology integration. Additionally, participants have equipped with practical insights and strategies for overcoming obstacles to implementation, fostering a more effective and student-centric educational experience at the UG level. Ultimately, the programme has contributed to the creation of a roadmap for institutions to successfully align with the objectives of NEP 2020, ensuring a smooth transition to its envisioned reforms.
