

**A] Title of the seminar/workshop/conference/webinar:** “Kathopakathan” - The Lecture Series on ‘Human Evolution from Apes: Fact or Fallacy?’

**B] Type of activity:** "Kathopakathan" - The Lecture Series of Enlightenment, Conversation, Dialogue, and Discourse on Contemporary Issues, inaugurated by the IQAC, Chakdaha College, represents a visionary platform for intellectual exchange and knowledge sharing.

**C] Name of the organizing Department/ Committee:** IQAC, Chakdaha College

**D] Date of the Activity:** 05.09.2023

**E] Number of participants:** 39 + 35 = 74

**F] List of Speakers with designation:** Dr. Shubhatosh Biswas, Associate Professor in Zoology, Chakdaha College

**G] Advertisement /flyer:**

**Event Title:** "Humans Evolved from Apes: Fact or Fallacy?"

**Speakers:** Dr. Shubhatosh Biswas, Associate Professor of Zoology, Chakdaha College

**Date:** 5<sup>th</sup> September 2023

**Time:** 1:30 pm to 2:30 pm

**Venue:** Vidyasagar Sabhakaksha, Chakdaha College

**CHAKDAHA COLLEGE**

Dear Participants,

We are delighted to present "Kathopakathan," an enriching initiative brought to you by the Internal Quality Assurance Cell (IQAC) of Chakdaha College. Our primary objective is to establish a platform for intellectual discourse and knowledge sharing. We cordially invite you to join us and be a part of this journey towards promoting enlightenment and facilitating knowledge exchange. Engage in stimulating conversations, constructive dialogues, and meaningful discourse that fosters intellectual growth and critical thinking.

Thank you for being a part of this enriching journey towards knowledge and growth.

Warm regards,

Dr. Suagata Das Mohanta, Principal, Chakdaha College | Dr. Arun Kumar Nandi, Coordinator, IQAC, Chakdaha College

**IQAC-Chakdaha College Presents**

**"Kathopakathan" - The Lecture Series of Enlightenment**

Join us for the 2<sup>nd</sup> Lecture (Session 2023-24) on **"Human Evolution" (Blended Mode)**

For free registration, a certificate of participation, and updates, please join our WhatsApp Group using this Link: <https://chat.whatsapp.com/H0F8q8wFTY5LM0J12rbo>

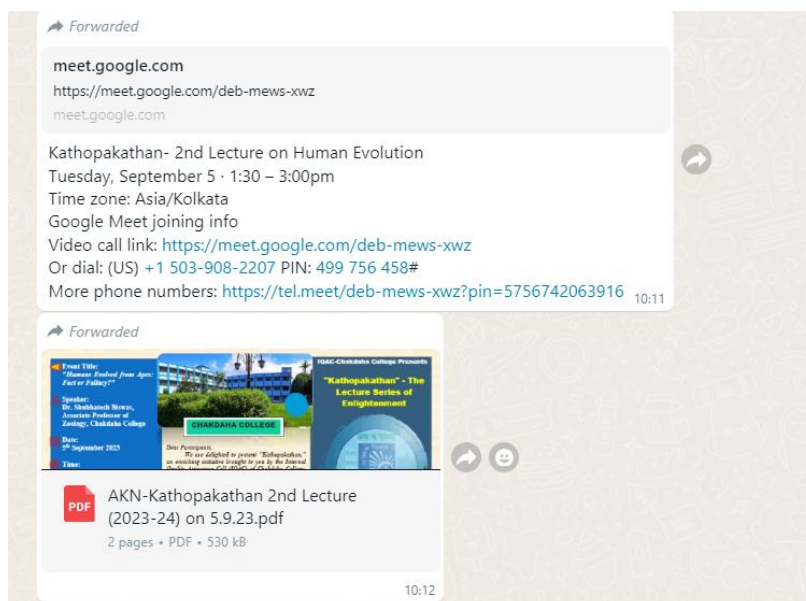

**About the Subject:** "Human Evolution: Tracing Our Remarkable Journey"

Human evolution is a captivating and awe-inspiring journey that has shaped our existence over millions of years. It's a story of adaptation, survival, and the incredible transformation that has led to the diverse and complex species we are today. This process has not only contributed to our physical attributes but has also influenced our cognitive abilities, behaviors, and social structures.

From our distant ancestors to modern humans, the evolution of our species is a subject that continues to intrigue scientists, researchers, and curious minds alike. Through the study of ancient fossils, genetic evidence, and comparative anatomy, we uncover the fascinating narrative of how our species emerged and developed over time.

This exploration into human evolution delves into questions about our origins, the factors that influenced our anatomical changes, the emergence of tool usage, and the development of language. It also raises thought-provoking debates about the connections between science, belief systems, and cultural narratives.

As we embark on this journey of discovery, we not only gain insights into our past but also a deeper understanding of our place in the natural world. Join us in unraveling the mysteries of human evolution, as we navigate through scientific discoveries, debates, and the intricacies of our own story!

## H] Outcome of the seminar:

The Lecture entitled “*Human Evolution from Apes: Fact or Fallacy?*” has been organized to provide an in-depth understanding of the complex journey that has shaped our species over millions of years. This initiative aims to examine the key aspects of human evolution, including the anatomical, cognitive, and behavioural changes that have occurred throughout history. Through the study of fossils, genetic evidence, and comparative anatomy, the programme has addressed the fundamental questions about our origins, the evolutionary forces at play, and the emergence of key human traits such as tool usage and language. Additionally, the program has encouraged critical reflection on the interplay between scientific discoveries, belief systems, and cultural narratives regarding human evolution.

Participants has gained a comprehensive understanding of the process of human evolution, from early ancestors to modern humans. It has developed a deeper appreciation for the factors that have shaped our species, both physically and cognitively, and explore the key milestones in human development, such as bipedalism, tool usage, and the advent of complex language. Additionally, participants should be able to critically engage with ongoing debates surrounding human evolution, including the connections between science, culture, and belief systems. By the end of the programme, participants have been equipped with a clearer perspective on our evolutionary past and a more profound sense of our place within the natural world.
