- G. Objective:It is required by the Biological Diversity Act of 2002 to prepare PBR. It is a register that includes detailed data on the availability and understanding of biological resources (flora and fauna) in the area, as well as any potential uses, medical or otherwise. This seminar's primary goal was to go over PBR techniques and the reasons they are significant to us.The primary goal of this seminar was also to emphasize the importance of biodiversity conservation.
